

Exceptional jewels dazzle buyers

Jewellery & Gem WORLD Singapore is providing international exhibitors with a valuable showcase for their masterpieces. Venus Jewel is unveiling The Royal Oval, a spectacular 52.64-carat flawless Type IIA natural diamond at the show. "It took us 105 days to produce this stunning piece of nature from a rough weighing 144 carats," said the company's partner Rajesh Shah (pictured), who is inviting visitors to view this marvel at his booth. Over at Veerasak Gems, the spotlight falls on fascinating rubies and sapphires in loose stones, layouts and jewellery.

Grabbing attention are a ring with a 10.01-carat unheated Mozambique Pigeon's Blood ruby surrounded by D-colour diamonds and a layout of 42 unheated Mozambique Pigeon's Blood rubies headlined by a 15-carat pear-shaped centre piece.

While the company is known for its high-end stones, it also provides the full range of coloured gemstones, said president Veerasak Trirotanan. Meanwhile, glittering in the display windows of Vitalit Co Ltd is a 3.45-carat cobalt spinel from Tanzania, among other sparkling finds.
